Introduction

Parents will need to create a *Parent Access Code* to be able to:

- to sign-off on their son's homework
- to read notes sent by teachers

Each of these tasks can be completed using the App4 Student app on your son's iPad.

Alternatively, you can download the App4 Parent app onto a different iPad and complete these tasks. The Parent Access Code will be needed to login to the App4 Parent app

App4 Parents

Creating the Parent Access Code (or Password)

The easiest way to create a Parent Access Code/Password is to open the App4 Student app on your son's iPad and complete the following steps.

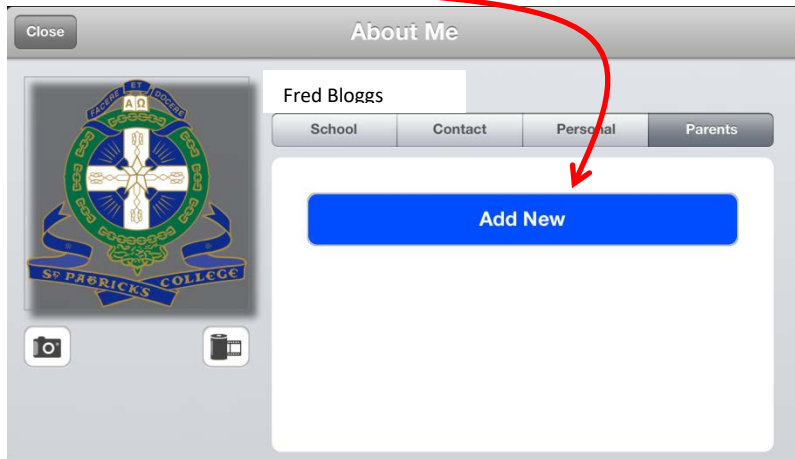

1. At the App4 Home, screen click on the **About Me** link.

2. Click on the **Parent** tab.

3. Click on *Add New*

4. Enter your preferred parent information.

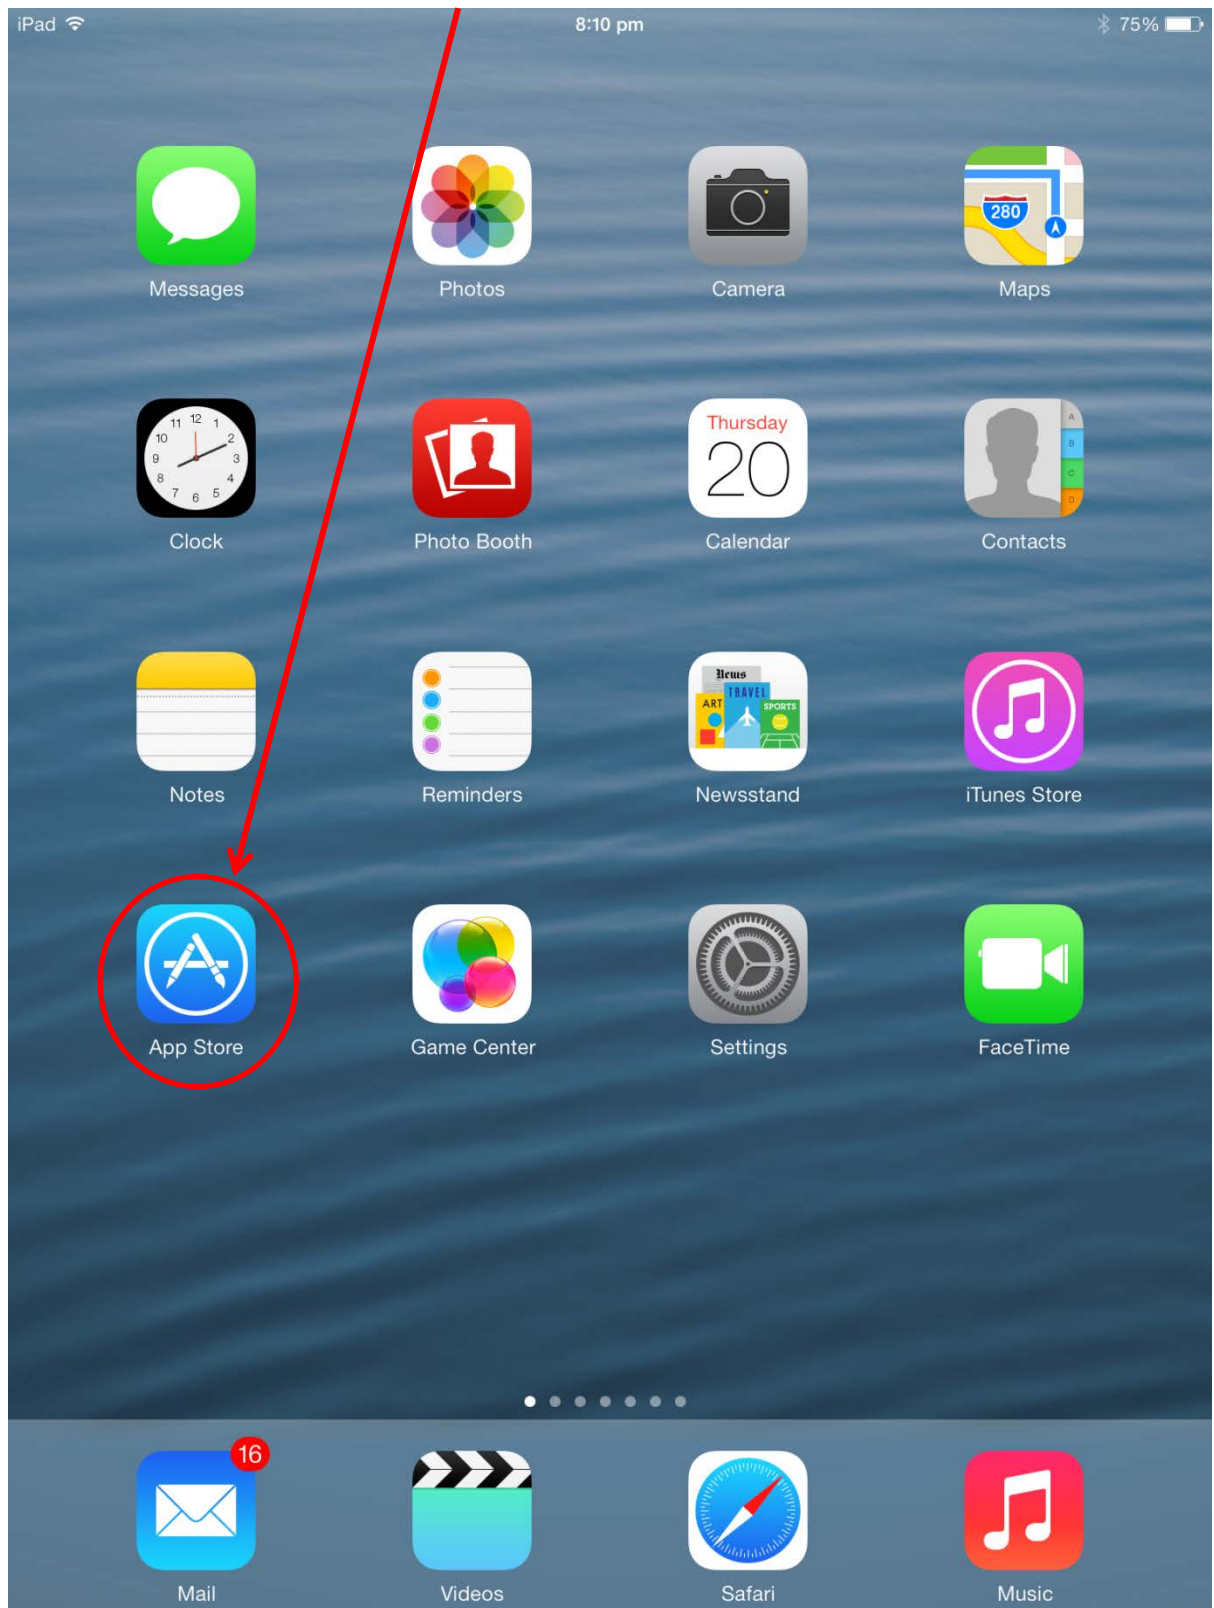

Click *Done* when finished

Enter your preferred Parent Access Code/Password. This will be needed to sign off homework and to send parent notes to teachers.

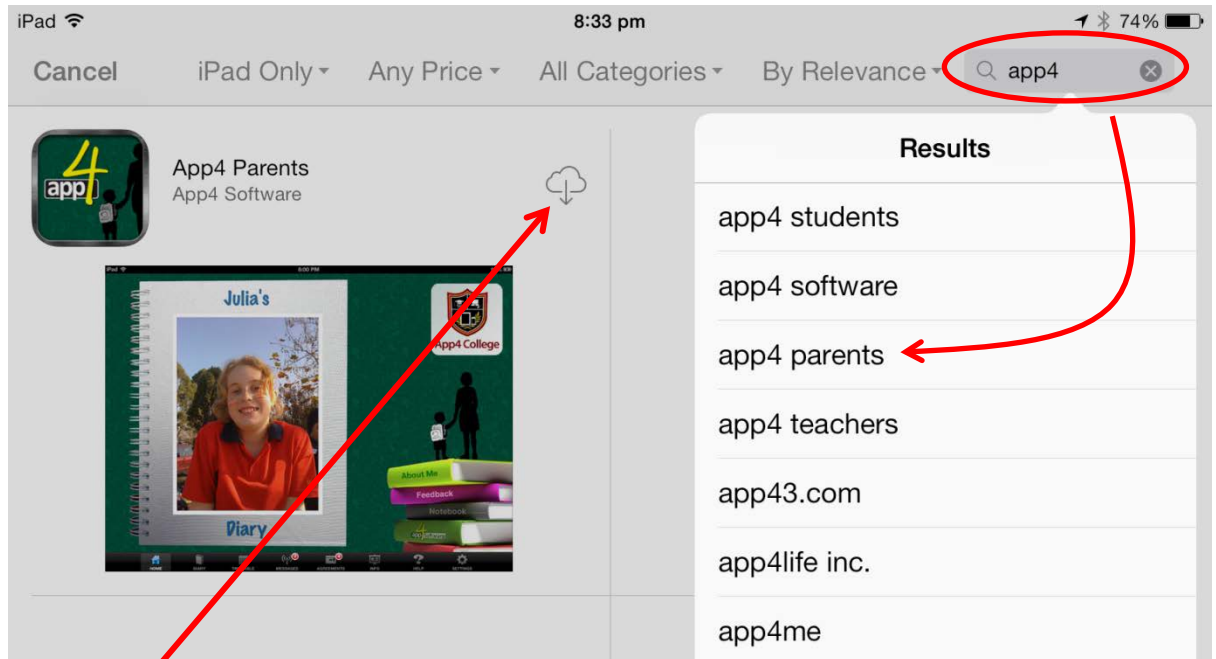

We recommend you use a complex access code that is not easily guessed.

Installing the App4 Parent app on your iPad

1. Login to the App Store on your iPad

2. Type App4 in the Search bar and select App4 parents.

3. Click on *Install*.

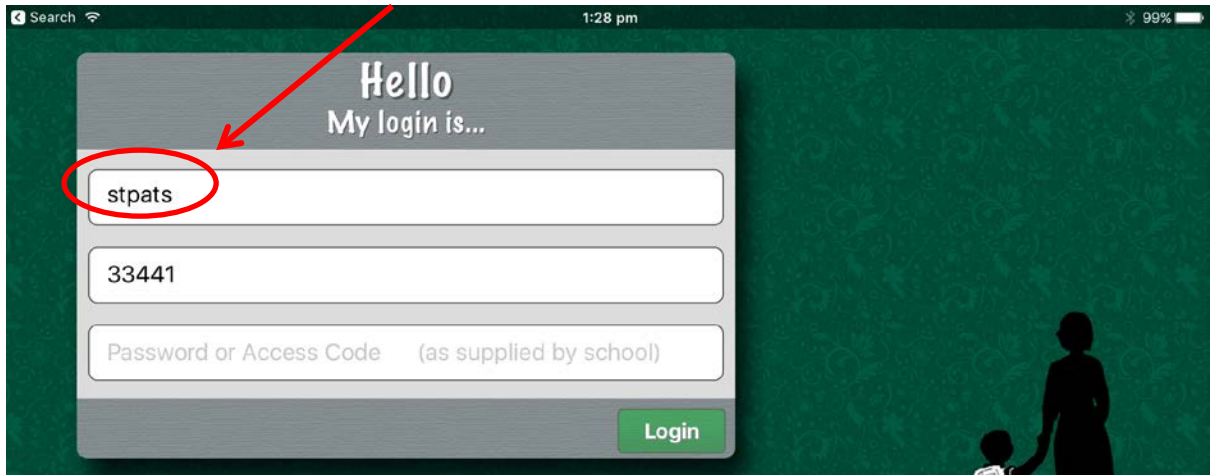

Logging in to the App4 Parent app

4. Locate and click on the App4 Parent app.
5. The login screen below will appear.

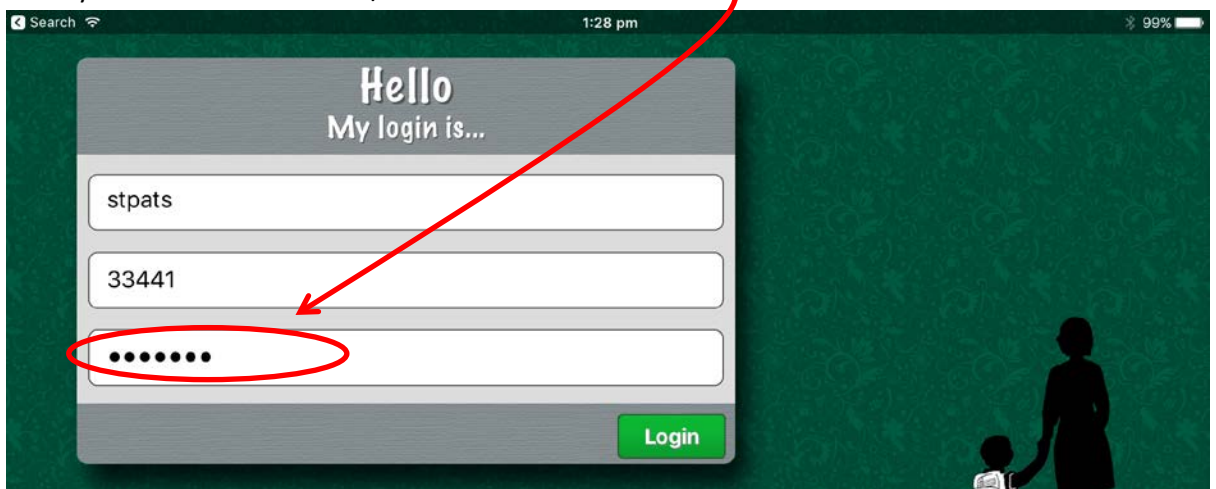

6. Enter the School Identifier: stpats

7. Enter your son's ID

8. Enter your Parent Access Code/Password

9. You will reach the *Home* screen of your son's diary after you have logged in.
