

## Setting up Apple ID

An Apple ID is a username you can use for everything you do with Apple and you can use it to create your iTunes account. An Apple ID allows you to shop the iTunes Store, purchase apps and music, log in to FaceTime or iCloud, buy from the Apple Online Store, access Apple.com support, and more.

As you are predominantly using your iPad for school / educational at school, it is recommended an Apple ID is made for the student with parent support. You may want to make a new Apple ID that is based on your school email and username.

Or you may want to use an existing Apple ID that your son already has.

**Note:** If at any point you have any questions about Apple ID please don't hesitate to contact St. Patrick's IT Support staff.
